

# WELCOME to the 2025

# SOCMA Show

February 19-21 | Nashville, TN

## VISIT THESE MEMBER COMPANIES TO FIND YOUR SOLUTIONS!

SHOW HOURS: Wednesday & Thursday 10:30 a.m. – 5:30 p.m. | Friday 9:00 a.m. - Noon

**BOOTH #518**

Calca Solutions has stood at the forefront of U.S. hydrazine production and evolved alongside countless applications for this versatile chemical from solutions to propellants, proving the significance of hydrazine over seven decades. Calca Solutions makes various blends of hydrazine with popular solutions being 64%, 54.4%, 35%, and 15.5% with a variety of specifications available, including nuclear grade. A new addition to the portfolio is Cleanazine, which is the safest way to neutralize hydrazine solutions.
