Since our inception in 1978, our customer base has grown to 160,000 relationships, including all Fortune 100 members within the process industries we serve from 15 different countries.

Focus Industries

About IPP

- 1. We buy and sell process manufacturing plant sites.** We have a portfolio of existing, idled plant sites around the world to expand your capacity.
- 2. We buy and sell plants for relocation.** We have complete process plants available for relocation globally to save on your capital expenditures and lead time versus building new.
- 3. We buy and sell high quality used process systems and equipment.** We offer quality cost effective and time efficient solutions to both buyers and sellers.

We proudly have made a lasting commitment to sustainability, promoting eco-friendly practices in everything we do to support the circular economy.

Off-Market Business and Site Carve-Outs

PLUS: New Equipment & System Design-Fabrication

About GPS

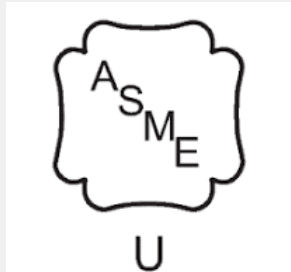

1. **We Sell** new alloy process equipment, including reactors, heat exchangers, tanks, filters, dryers, mixers and centrifuges.
2. **We offer** both Standard (from stock) and Custom-Built Solutions, with lead times ranging from near zero to 28 weeks.
3. **We serve** the fine, specialty, custom chemical, pharmaceutical, food, petro-chemical, agri-chemical, fertilizer, and industrial chemical industries.
4. **We focus** on providing customers with the equipment they need when they need it -- especially harder-to-find process equipment.

Primary Industries

Certifications & Standards

9001, 14001, 45001

Equipment manufactured as per ASME, TEMA, API, DIN, IS standards and cGMP
in compliance with USFDA, EMA, UKMCA, and TGA

Stocked Equipment

GPS keeps a constant inventory of 2000-, 4000-, and 6000-gallon 316L Stainless Steel reactors with the following specifications for immediate delivery:

Design Standard: ASME Section VIII Div. 1

Stamping: "U" Stamp

Internal Pressure: 145 psi/FV

Internal Temperature: 302 °F

Jacket Pressure: 145 psi

Jacket Temperature: 302 °F

Jacket Type: Half Pipe Coil 304SS

Internal Finish: Ra12 Electropolished

Impeller Type: 4-Blade PBT

Agitation Seal Type: Double Mechanical

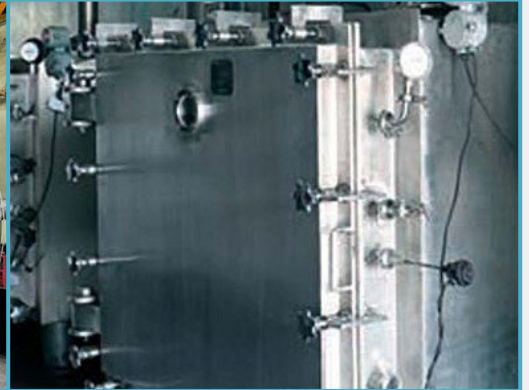

Drive Make: SEW Nord

Sanitary Construction: Yes

cGMP Design: Yes

About UGE Universal Glasteel Equipment

Price, Delivery Time, or Quality. You don't need to choose.

- From World-Class Design-Fabrication facilities, we build brand New Glass or Re-glassed Reactors, Tanks, Dryers every day for our stock.
- Our 18-step reconditioning process takes damaged, unserviceable equipment and brings it back to as-new condition -- at a fraction of the time and price

Our US and European stock of vessels are available for immediate shipment. Most custom orders can be ready to ship in 15 weeks from order!

ASME | National Board | PED | CRN

Why the IPP Group

1. **We save you significant time and money.** We deliver our quality used and new equipment faster and offer significant savings. When a customer buys a complete plants, process, or equipment for relocation from IPP, they obtain significant capital savings and reductions in lead times vs new equipment.
2. **We offer a Turn-Key Solution:**
 - Manage all aspects of your shutdown Plant, Process, or Equipment removal and sale
 - Custom NEW Equipment whether you need alloys or glass lined process equipment.
 - **We are a One Stop Shop!**
3. **We have the right choices for your needs.** We understand the complexities of the process plant industry, and our team of experts are dedicated to providing you with the highest quality solutions and services.
4. **We are a Solutions Driven Partner.** For 47 years, we have helped thousands of customers focus on their business growth with entrepreneurial, creative solutions.

Thank You.
