

SOCMA 2025

POLYRHEO GROUP OF COMPANIES

Your Natural Chemical Partner !

Vision

- To be the world's most dynamic technology company, creating and bridging sustainable solutions, essential to a better, safer, healthier life for people everywhere.

Goals

- Satisfy Customer needs on an ongoing & long term basis.

Mission

- Long-term Relationships built on Fairness & Trust.

- 
- ✓ WHO ARE WE & WHAT DO WE DO
 - ✓ North American Chemical Manufacturing and Technical Sales Organization, based out of Philadelphia.
 - ✓ Global manufacturing base – USA, Canada - - also India & China
 - ✓ Manufactures and Markets Specialty Chemicals / Raw Materials, Blends, Intermediates and Finished Products
 - ✓ Global Distribution of various Surfactants & Oleochemicals

Potential Value- ONE STOP SHOP

Global Partnership built on unparalleled service.

Quality Products manufactured in North America / India/ China and Other Centers.

Warehouse/ Stock Point: Philadelphia, New Jersey, Pittsburg, Montreal, Toronto,

2

Sharing of technical knowledge and expertise.

4

Competitive pricing, without compromising quality or service.

Capabilities

Corporate Offices	: Philadelphia & Montreal
Sales Offices	: Philadelphia, Houston, Montreal and Toronto
Laboratory	: Philadelphia, Montreal, Toronto, WV
Manufacturing	: Philadelphia, MapleShade NJ , WV, Montreal & Toronto
Philadelphia Site	: Plants, lab etc (1 Site)
West Virginia site	: 15 acres , plant, reactors, lab, etc
Distribution Centres	: US & Canada (9 Sites)

-
- ✓ Over 300,000 + Sq ft manufacturing & distribution facility with 10 sites
 - ✓ 100,000 L/day production capacity for various chemical products
 - ✓ 100,000 units / filling /day
 - ✓ 5,000 gallons paint / day (Toronto)
 - ✓ Employee Strength-200

POLYRHEO

- Manufacturing & distribution of Speciality chemicals / raw materials for Surfactants & Oleochemicals & General Industrial Chemicals, esp for Paints & Coatings, Soaps & Detergents, Cosmetics, Lubricants, Constructions, Personal care,
- H I & I , cleaning, Paints, Plastics, etc
- Stocking & Distribution across USA & Canada of raw materials. Just in time planning,
- Also, International distribution of chemical raw materials used in personal care, cleaning, HI&I, etc.
- B2B – Business to Business sales.
- We now operate out of 8 sites in North America , also partnership in India & China for various raw materials

Polyrheo USA - Manufacturing

Philadelphia, PA

- Two Divisions
- Advance Technologies: Lubricant and Specialty Esters
- Neatsfoot Oil Refineries: Animal and Vegetable Oil Refining and Treating

New Cumberland, WV (aka Newell Polymers Inc.)

- Alkyd resins, Potentially other polymer systems
- Toll Processing
- Recommissioned December 2023
- 15 acre site with room to grow

Mapleshade, NJ

- Acquired August 2024 from Huntsman
- 5 acres site, multiple reactors , PLC, storage tanks, etc
- Currently recommissioning equipment
- Once operational Epoxy Resins and modifiers.
- Target Q2 2025

Philadelphia Site – Since 1858

Polyrheo USA / Neatsfoot Oil Refineries / Advance Technologies

Esters / Surfactants production plant

**- two Hot Oil reactors, 6000 USG & 3000 USG with let down tank
– 6000 USG, filtration , vacuum distillation.**

Multiple storage tanks, heated , MS & SS tanks

- Manufacturing of Lubricant Esters, Specialty esters, Animal & Veg Oil Refining , etc.**
- Animal Oil refining / lard oils – over 150 years**
- Used in lubricants, Metal working applications etc**
- Main Clients include – US Lubricant Manufactures , Personal care manufacturers, Metal Working fluids producers etc.**
- Competitive advantage – Made in USA, Neatsfoot oil Brand, One of Oldest running corporation in Philadelphia.**

Maple Shade , NJ Site

This facility was previously owned by CVC Thermoset and Emerald Performance Materials, before being acquired by Huntsman in February 2020.

Polyrheo has begun the process of recommissioning this manufacturing plant. Working on start up, with the renewal of permits, etc. – planned for Q2 2025

5 acre site, multiple reactors & bulk storage tanks, with lots of capacity yet to install & on ground .

Manufacturing Capabilities – producing Speciality toughening agents, and speciality epoxies for high performance Thermoset systems and other niche applications, Epoxy resins, reactive agents, diluents, accelerators & hardners. urea powders . for structural adhesives .

West Virginia Site – Newell

Newell Polymers, Former Deltech resins plant.

**Centrally located in the chemical belt , 45 mts west of Pittsburg,
In New Cumberland, Ohio River Blvd.**

15 acre site, with lots of capacity yet to install & on ground .

**Manufacturing Capabilities – Alkyd resin, Solution acrylics, speciality
chemicals , Quats, Amides, Agri raw materials, etc**

Formerly an EPA approved site for pesticide manufacturing

West Virginia Site – Newell

- Four Hot Oil reactors, 12,000 USG, 2 x 2500 usg, 1 x 1800 usg
let down tanks – 4 x 6000 USG, 4 x 6000 USG in installation
filtration , vacuum distillation.

Multiple storage tanks, heated , MS & SS tanks

Solution acrylics – 5000 USG

Speciality chemical reactor capacity – 2 x 3000 USG ,

Low Temp reactions, reactors @ 100 deg C

Dryer

Full fledged Scientific lab

West Virginia Site - Newell

Manufacturing site status

- Acquired from Deltech in Feb 2023; assets only no Intellectual Property
- Dennis Cooper - GM
- First commercial Alkyd production December 2023
- Staffed for 24/5 Operations
- 15 acre site with room to grow

Laboratory status

- Basic QC lab in place, can add testing capabilities as needed
- Development lab in place for producing samples
- Currently staffed with operation staff

Manufacturing Focus

- Initial production of standard type Alkyd resins
- Selected toll manufacturing of Alkyd resins
- Plan to continue to broaden our product line in response to market requirements
- Ultimate goal is to offer a broad range of Alkyd and modified Alkyd Resins

Newell: Equipment

Alkyd Production Facility

- 3 reactors operational (2-2600 gallon; 1-1700 gallon)
- 4 blend tanks (2 operational, and 2 currently being updated)
- 9 Finished product storage tanks (range from 5800 to 8000 gallons)
- 8 Raw material tanks (12,000 to 20,000 gallons)
- Large reactor in place but not operational (12,000 gallon)

Resin Facility

- Various pieces of equipment in place
- Previously was used for acrylic resins
- We have interest in making this operational if the right developmental partner can be identified

Packaging/Warehousing

- Drums, totes and bulk trucks
- Site does not have a rail siding, but can access to a site nearby.
- Extensive warehousing for raw material and finished product

POLYRHEO – MONTREAL SITES

- **Baie D Urfe – Montreal island**
- **Surfactant & chemical blending Plant**
- **20,000 sq ft – bulk tanks , Mixing, filling lines**
- **Reaction temperature 80 deg C**
- **5000 USG per day**

- **Pointe Claire – Montreal island**
- **Warehousing / distribution – 50,000 sq ft**

POLYRHEO – BOLTON, QUEBEC

- Bolton , Quebec – 2 hour east of Montreal, 15 mts from USA Border
- Manufacturing of Fire side additives, chemicals, for a cleaner environment, Tolling / packing.
- Main Clients include – Pulp & paper mills
- Pesticide Production capacity
- Mixing tanks, etc
- Liquid & powder blending facility
- 5,000 USG per day capacity – can do bulk & packaged products

POLYRHEO – Sentinel Lubricants

- Cowansville
- Milspec lubricants & Additives
- Manufacture & Sales
- Tolling / packing.
- Mixing tanks, etc
- Liquid & powder blending facility

POLYRHEO – SELECTONE PAINTS, TORONTO

- Paint factory = 30, Gail Grove, Toronto , Canada
- Manufacturing of all kinds of paints & coatings.
- Solvent based & water based
- Lab, dispersers, Mixing tanks, etc
- Liquid & powder blending facility
- 10,000 USG per day capacity – can do bulk & packaged products
